DEEPER AND LONGER

Become the Great Crevasses in the Mississippi Levees.

GREENVILLE IN GREAT DANGER.

Should a Break Occur at Last Point the

Loss of Life and Property Would Be Inconceivable—Several Thousand Square Miles of Fertile Country Already Marked For Destruction—Worst to Come.

MEMPHIS, March 31.—There are now three breaks in the levee that protects the Mississippi delta from the waters of the river. One is seven miles below Greenville, Miss., at Wayside, which is 1,200 feet wide; one 40 miles north of Greenville, at the head of the delta, which is 1,000 feet wide and becoming deeper and longer as the water rushes through it. The third occurred at an early hour yesterday, seven miles north of a point opposite Arkansas City, and at last reports a stream as wide as the Hindson was tearing through it and covering the country for miles in the interior.

The river from the north to south break is like a mighty crescent with Rosedale, Greenville, Gunnison and many other small towns between the arc and its chord, which is the Riversides division of the Yazoo and Mississippi valley railroad. This road strikes the river at the north break, but there the river swings to the west and above Greenville, turns again toward the east striking the north and south line of the railroad at Wayside, the point of the lower break. The water from the upper or Perthshire crevasse has already cut through the railroad and is tearing through the plantations to the south. At the middle crevasse, the floods from the north have also joined forces with these waters and together they are inundating the country southward. The upper waters will reach the lower crevasse soon and the united water from three floodgates will with hourly increasing force and volume, rush over the country and finally be thrown back into the main river at the mouth of the Yazoo, a few miles north of Vicksburg.

Back 30 to 50 miles from the river runs a number of lateral streams which empty their water into the Yazoo. The whole territory from the main river east to these streams will be for the most part under water in 48 hours. The region marked for destruction is probably a hundred miles longer from 20 to 35 miles wide. The country is as fertile as a northern garden.

Greenville is in a great danger. The water from the middle break will partially flood that town. If the levee in front of Greenville should break no man can conceive what the loss to life and property would be.

Railroad communication has already been cut in two places and before night the Georgia Pacific road, running east from Greenville, may be flooded.

Probably 10,000 people are working with a desperation born of despair to save their homes and property. The whole machinery of the state and the Illinois Central railroad is being brought into play. It is currently reported that the levee in front of Laconia Circle, Ark., has broken. If this should be true, and most probably is correct, 30,000 acres of fertile cotton land will be flooded.

The news has reached Memphis through a telegram from Captain M. Cheek of the steamer Kato Adams, supposed between 8 and 4 a. m., the levee near Stokes Landing, four miles above Huntington, on the Mississippi side, gave way. The information came direct from Superintendent Gillespie of the Illinois Central, who is now on the line. The water from this break will reach the Yazoo and Mississippi valley tracks at Scotts Station, 31 miles south of Rosedale, and also at Moores Station, on the Huntington branch. The width of the crevasse could not be ascertained, but the worst is feared, as the levee there for miles is considered rather weak.

The river is stationary at Memphis, the gauge indicating 36.2 feet. The stationary condition, instead of the usual fall, is thought to have been brought about by the rainfalls in the territory which drains into the Mississippi north of Memphis. For the same reason it is predicted by the local observer of the weather bureau that there will probably be a slight rise in the river at Memphis during the ensuing 24 hours.

At Helena a rise of but two-tenths of a foot in the 24 hours, ending yesterday, is recorded.

At Arkansas City, instead of the considerable rise, a fall of two-tenths of a foot is indicated. This fall in the river at that point is attributed to the fact that breaks in the Arkansas levee above Arkansas City have afforded an outlet for a big volume of water which would otherwise swell the volume within the river channel proper and caused a rise instead of a fall at this point. The river at Arkansas City is 9.7 feet above danger line.

At Greenville, Miss., a similar fall of two-tenths of a foot is indicated. The fall here is attributed to breaks in the levee on the Mississippi side above Greenville.

At Vicksburg, this morning, the gauge registered 49.8 feet, a rise of one-half a foot in 24 hours. The river at

Vicksburg has reached a point which is 8.8 feet above danger line.

The river is rising with increasing rapidity both at Vicksburg and points on the lower Mississippi.

Four Negroes Drowned.

ST. CHARLES, Ark., March 31.—Yesterday four negroes were drowned while crossing the backwater in a leaking catboat one mile south of this place.

POWERS TO THE RESCUE.

Greeks Dislodge the Turks at Spinalonga. Fighting General.

CANEA, March 31.—The Greeks yesterday attacked Fort Izzedin, which dominates Suda bay. The foreign ironclads bombarded the attacking force in support of the Turkish garrison, which had 12 cannon and one mitrailleuse. Finally detachments of the foreign troops occupied the fortress.

There was sharp fighting yesterday at Spinalonga. The Cretans succeeded in dislodging the Turks and seized a vessel which was landing ammunition for them. Fighting continues at Heraklion and Retimo. Several shots have been fired at the foreign occupying forces at Putsunaria.

The French commander has obtained reinforcements to replace the Turkish outposts which are said to be absolutely unreliable.

The fighting at Spinalonga lasted 48 hours. The Turkish garrison met with a heavy loss. A French warship has been dispatched to render them such assistance as may now be practicable.

Russia to Withdraw.

ATHENS, March 31.—It is rumored here that Russia has intimated that she will not participate in a blockade of Greek ports. This apparent change of front is viewed with suspicion in Greek official circles.

It is understood that the admirals have called on their respective governments for more warships as well as more troops.

Fishing For Torpedoes.

LONDON, March 31.—A dispatch to The Times from Salonika today says a panic ensued there last night when it was reported that the Greek cruiser had boats fishing for torpedoes off Cape Cara. The boats were discovered by the searchlight of an Italian battleship, but apparently the search was not successful.

Will Use Mausers.

CONSTANTINOPLE, March 31.—An imperial edict just issued orders that the first five army corps shall be armed with Mausers.

CUBAN AFFAIRS.

Rivera Was Wounded Early in the Engagement—Smallpox and Want.

HAVANA, March 31.—Great misery is being experienced at San Cristobal and elsewhere in the province of Pinar del Rio, owing to the prevalence of smallpox. The mortality is great. The municipal authorities are distributing relief when they are able to do so, that is to say, when the troops succeed in driving in the cattle from the surrounding country.

General Valesco is continuing military operations against the insurgents of Pinar del Rio, acting in conjunction with General Suarez Inclan.

General Ruiz Rivera, the insurgent commander captured on Sunday last, with his chief of staff, Colonel Bacallao, was wounded when the first shots were exchanged between the Spanish troops and the insurgents.

Cienfuegos, the southern port of the province of Santa Clara, where Captain General Weyler received the news of the capture of General Rivera, was illuminated last night. There were also great patriotic demonstrations in honor of the captain general.

The news of the capture of General Rivera has spread, it is stated, through Santa Clara, and, combined with the steady pursuit of the insurgents by the government forces, is rapidly diminishing the number of the enemy.

The principal plantations are reported to be grinding cane freely and without interruption.

The Spanish authorities today embarked 48 political prisoners for the Chafariz islands, together with 12 female vagrants.

Crosby's Body.

WASHINGTON, March 31.—Señor Deppen de Lome, the Spanish minister here, has cabled to Acting Captain General Ahnalamada, at Havana, a request that he do all in his power to aid in the recovery of the body of the unfortunate newspaper correspondent, Crosby, who was killed at Arroyo Blanco, and to have the remains shipped to the United States.

Heirless to Andrew Carnegie.

GREENWICH, Conn., March 31.—Andrew Carnegie received news today of the birth of a daughter in his New York home, where Mrs. Carnegie went a few days ago. Mr. Carnegie was able to be out of doors for the first time since his dangerous attack of pleurisy about five weeks ago.

Dragged to His Death.

WARSAW, Ind., March 31.—Chester Bowen, the 10-year old son of Joseph Bowen, a farmer living near this city, was killed Monday night. He was leading a cow, when his foot caught in the rope, and he was dragged several rods. He died 30 minutes later.

A Wealthy Suicid.

GENEVA, N. Y., March 31.—Charles F. Houghton, principal owner of the Corning Glass company, and reputed to be worth \$500,000, shot and killed himself at that place yesterday.

FOUND IN A FEED BOX.

Body of a Woman Whose Head Had Been Hacked to Pieces.

SHOCKING CRIME OF A TRAMP.

HON. GEORGE L. CONVERSE DIES AT COLUMBUS AFTER A LONG ILLNESS—MURDEROUS CONVICTS TIED UP BY THE WRISTS—NEW FACTORY AT SPRINGFIELD—DROWNED IN THE OHIO—OTHER OHIO NEWS.

COLUMBUS, O., March 31.—A shocking murder was committed on a farm near Black Lick, in the eastern part of this county. Mrs. Miller, wife of a well-to-do farmer, was outraged, cruelly hacked to death with an ax and her body then hidden in a feed box in a barn.

Coroner Birmingham has returned from Black Lick and gave the following facts as to the murder of Mrs. Miller:

John W. Miller, her husband, accompanied by Sam Williams, a hired man, left home yesterday afternoon, leaving Frank Miller, another hired man, with Mrs. Miller. When they came home, long after dark, Frank Miller said a neighbor woman had come and taken Mrs. Miller to her house.

At bedtime she had not returned, so Miller and the two hired men went to bed, the husband thinking that perhaps there was a sickness in a neighboring family that kept his wife away.

Yesterday when Miller went to the house he found blood on the floor, and, on lifting the lid of a long feed box, found his wife's body, her hands tied behind her back, clothes almost torn off and her head literally hacked to pieces with an ax.

It was then found that Frank Miller, left with her that night, had disappeared.

There is no doubt that he assaulted her and killed her Monday afternoon.

Frank Miller came along as a tramp last fall, and was employed by Farmer John W. Miller. His home is not known, but he had a certificate of deposit for \$1,500 on a Cleveland bank.

If he is found and does not prove an alibi incensed neighbors will lynch him.

Requests for bloodhounds to pursue Miller have been received here, but, as there are no such animals in this city, ex-Sheriff Horton of Newark has been telegraphed to for his hounds, and they will soon be on Miller's track.

Detectives from here are after Miller, but he has evidently hidden in the neighborhood.

HON. GEORGE L. CONVERSE DEAD.

COLUMBUS, O., March 31.—Ex-Representative George L. Converse, 70, died yesterday after a long illness. He fell sick while defending Editor W. J. Elliott on the charge of murder five years ago and was never entirely well again.

He represented this district in the Forty-sixth, Forty-seventh and Forty-eighth congresses, and, being a protectionist Democrat, joined with Samuel J. Randall in opposing the Morrison horizontal tariff reduction bill.

This led to his retirement from prominence in the party, and, though still calling himself a Democrat, he was an ardent protectionist and supported McKinley last fall.

MURDEROUS CONVICTS.

COLUMBUS, O., March 31.—W. W. Varney, the celebrated diamond thief of Cincinnati, and Charles French, a 12-year man from Cleveland, by a preconcerted movement, assaulted Lou Moorehead and Charles Schwein, fellow convicts, with intent to kill at noon. But for Gnard Roth of Hamilton county, in charge of boltshop No. 4, they would no doubt have killed these men. It took 10 stitches to sew up Moorehead's head and five to sew up Schwein's. Varney and French were tied up by the wrists for punishment.

BIG SHOE FACTORY.

SPRINGFIELD, O., March 31.—Secretary C. M. Nichols of the board of trade gave out officially that a ladies' shoe factory at Ripley, O., operated by A. W. Spinks, will be removed to this city and consolidated with the men's shoe factory operated by the Scowden-Jones company as an incorporated company with a capital stock of about \$40,000. The new firm will employ 150 men, women and boys.

JUDGMENT AFFIRMED.

COLUMBUS, O., March 31.—The supreme court in its decision yesterday affirmed the judgment of the superior court of Cincinnati in the case of the Cincinnati, Covington and Newport Railway company against Frederick W. Wood, receiver. The court would not entertain the application for a rehearing of the case of the city of Cincinnati against William Holmes. Holmes made the application.

GOING TO GREECE.

WOOSTER, O., March 31.—Cuban War Correspondent Sylvester Scovel, on reaching the city, was met at the station by a large crowd of relatives and friends. A reception in his honor was held at the home of John McSweeney, where Scovel met many friends. His stay here will be brief, as he will sail for Greece in a few days.

CREWS' WAGES REDUCED.

CLEVELAND, O., March 31.—At a meeting of the Lake Carriers' association yesterday the scale of wages for crews for the present season was adopted. The wages will be lower than they were last year, being about what was paid in 1894 and 1895. The crews will be well satisfied, however, as they have been anticipating a heavier reduction.

HOUSE AND SENATE.

ABOUT THIRTY-FIVE AMENDMENTS ADOPTED TO THE TARIFF BY COMMITTEE.

WASHINGTON, March 31.—Party feeling ran high during the last day of the tariff debate in the house. Political speeches were wedged in at every opportunity and there was constant maneuvering for political advantage. The opposition directed their efforts as far as possible toward stirring up dissensions upon the Republican side, but they succeeded only in exposing a single instance of revolt. That was on the subject of free hides. The Democrats pressed the question of a duty on hides for the benefit of the farmer with such vigor that Mr. Hepburn, an Iowa Republican, was drawn into the debate and made a strong plea for dutiable hides. He demanded that the house be given an opportunity to vote on this question and declared that every western Republican was in favor of it. Mr. Cannon of Illinois also gave a qualified endorsement to this demand. The Republican leaders defended their bill with vigor.

The ways and means committee held the floor with their amendments from 10 in the morning to 4 o'clock in the afternoon. About 35 were offered and adopted. Among them was one admitting free of duty "books, scientific apparatus, charts, maps, etc." for scientific and educational purposes.

IN THE SENATE.

WASHINGTON, March 31.—Senator Allen, a Populist of Nebraska, made a long speech in the senate yesterday on the unconstitutionality of tariff rates beyond those requisite for revenue. Allen severely criticized the trusts and combinations which he declared reaped the main advantage of tariff taxes. The senator's remarks were in the nature of a legal argument showing the constitutional limitations on the taxing power of congress.

The house amendments to the senate joint resolution appropriating \$250,000 for the saving of life and property along the Mississippi river were agreed to, and the resolution now goes to the president.

Among the petitions was one from the board of sheep commissioners of Montana, urging the most ample protection on wool, in accordance with the platform promises, and asserting that the policy of protection would not long prevail without this adequate protection to the wool growing interest.

Senator Foraker has introduced a bill in the senate to amend the interstate commerce act so as to permit pooling by railroads.

JUDGE DAY

SELECTED AS SPECIAL COMMISSIONER TO CUBA. PALMER AGAIN PUBLIC PRINTER.

WASHINGTON, March 31.—William R. Day of Canton, O., has been selected by the president as a special commissioner to Cuba. The president and Secretary of State Sherman have had this matter under consideration for several days. The specific object of the special commissioner's visit to Cuba will be to participate, as the representative of the president, in the investigation to be made by the Spanish authorities into the alleged murder of Dr. Ruiz. The president intends that the investigation shall be fair and complete, and, if not, there shall be some one there who will report the fact to him, and upon this report will be based whatever action this government may subsequently take.

Judge Day is a close personal friend and neighbor in Canton of the president, and is a man of high legal attainments, known all over northern Ohio, and in whose judgment he has the greatest confidence. Judge Day arrived in the city yesterday, and held a long conference with the president and secretary Sherman. He leaves once on his mission.

The president yesterday sent the following nominations to the senate: Frank M. Palmer of Illinois to be public printer; Alexander M. Thackara of Pennsylvania to be consul of the United States to Havre, France; Assistant James H. Oakley of Illinois to be a passed assistant surgeon in the marine hospital service.

Mr. Palmer was public printer under the Harrison administration.

HOPE ABANDONED.

TWO BRITISH VESSELS WITH COMBINED CREWS OF 67 GIVEN UP FOR LOST.

SAN FRANCISCO, March 31.—Lloyd's agents have received word that the fine four-masted British ship Lord Dufferin and the British bark Bankholme are missing. All hope for the Lord Dufferin is abandoned. There is still some hope for the Bankholme, but very little. The combined crew of the ships numbered 67 men, all of whom are supposed to have perished. Both vessels were in the vicinity of Montevideo on the same dates and one of the theories advanced is that the ships were in collision and went down with all on board.

ONEIDA BANK ROBBED.

SAFE WRECKED WITH NITROGLYCERINE—TWO MEN UNDER ARREST.

GALESBURG, Ills., March 31.—The Oneida (Ills.) state bank was robbed last night. Entrance was made through the front door. The safe was wrecked by nitroglycerine. The amount taken is between \$3,000 and \$5,000. The men escaped on a handcar. It was evidently the work of professionals. Two Chicago men have been arrested here on suspicion of being the perpetrators. They are John Shevin and

INDICATIONS.—Increasing cloudiness and probably rain in the afternoon or night; southerly winds.

It is asserted at Frankfort that the Hunterites stand ready to pay \$10,000 each for two votes. In other words, these Republicans are ready, it seems, to resort to bribery and most anything else to win.

The secret of some of Dr. Hunter's troubles in the Senatorial fight might be found in the fact that many of the "wheel horses" who are "pulling" for him hope the "lightning" will strike them if he doesn't win.

Two Republican members of the House protested Monday against the cotton and woolen schedules of the Dingley bill, declaring that the duties are too high. The bill must be a "tariff of abominations" when Republicans jump on to it.

No wonder Kentucky Republicans are so anxious to elect a Senator. First Assistant Postmaster General Heath has sent word that no more Kentucky appointments will be made through his department until a Senator shall be chosen.

The registration of voters in Chicago last fall showed up an aggregate of 380,051 names, which was about 50,000 greater than the registration of New York city. Now a revised registration has been made for the spring election and the total is 426,581 names, an increase of 46,530 within six months. Next to padding a census there is nothing in which the Windy City can so easily distance competition as in swelling the registration for an April election," remarks an exchange.

SOME MORE "FIGGERS"

For the Tariff Writer of the Public Ledger to Ponder Over and Consider.

MAYSVILLE, March 29th, 1897.

Editor Bulletin: The Public Ledger replying to "Free Trade's" criticism of the Ledger's tariff arguments, says we signed our name under a mass of figures that are false—that is if the official reports of the Democratic statistician of the Treasury Department are correct. We were under the impression that the Wilson tariff was in force for the fiscal year 1894. But upon investigation we find that such was not the case. The McKinley tariff was in force during the fiscal year 1894.

The Ledger says our figures were doctored. We challenge him to produce the report of the Democratic statistician of the Treasury Department and then the readers of his paper can see whether we are correct or not.

As we go into the fiscal year 1894 on the wrong side, we will take the years 1892-93, McKinley law, and the years 1895-96, Wilson law.

Our foreign imports free of duty for the year 1892 amounted to \$158,070,601; for the year 1893 \$141,172,061. For the years 1895-96, Wilson law, our imports free of duty amounted to \$376,890,100 and \$368,997,593 respectively.

The imports free of duty for the years 1892-93, McKinley law, amounted to \$902,246,668.

Our imports free of duty for the years 1895-96, Wilson law, amounted to \$745,787,623.

We imported free of duty for the years 1892-93 under the McKinley law \$1,649,045 more than we did under the Wilson law, or an average per year of \$73,229,522. Will the Ledger editor say these figures are false? If so, will he produce the correct figures?

In our article to the BULLETIN it was not our purpose to show that the Wilson tariff produced more revenue than the McKinley tariff, our purpose was to show that we imported more goods free of duty under the McKinley tariff than we did under the Wilson tariff, and we think we have done this. At least the Democratic statistician of the Treasury Department bears us out in our claim.

The Ledger says the articles imported free under the McKinley law consisted exclusively of those things that did not come into competition with the American workman and farmer. We imported cotton and cotton waste to the amount of 28,000,000 pounds free of duty. This comes into competition with the southern planter. Now the Ledger would have its readers believe that the hard times for the past few years were brought about by free imports and low duties under the Wilson law, thereby inducing us to import so much more of manufactured goods under the Wilson law, thus causing the American manufacturers to close their factories and throw the American mechanic out of employment. We will give a few of the leading articles imported:

Flax and Hemp Manufacturers Of.
McKinley law, 1892, dutiable..... \$28,420,126
Wilson law, 1896, dutiable..... 22,624,457
Glass—Glasses,..... \$8,681,902

Iron and Steel Manufacturers Of.
McKinley law, 1892, dutiable..... \$29,816,634 values
Wilson law, 1896, dutiable..... 26,596,816 values

Paper and Manufacturers Of.
McKinley law, 1892, free..... \$527,007 values
McKinley law, 1892, dutiable..... 3,359,359 values
Wilson law, 1896, free..... 3,668,623 values
Wilson law, 1896, dutiable..... 3,133,416 values

It will be seen that we imported much more under the McKinley law than we did under the Wilson law. It is true times have been hard lately, but they were not brought about by imports under the Wilson bill, either free or dutiable. Your truly

WHAT A MIX?

Bradleyites, Hunterites, Sound-Moneyites, Silverites, Democrats, Republicans and Others Muchly Muddled.

During the last session of the Legislature it was said that never before in Kentucky had there existed and never again would there exist such a combination of political circumstances, says the Frankfort correspondent of the Courier-Journal. The present situation discounts anything ever known before, as slight evidence of which witness the following positions assumed by factional leaders:

Seven Republicans openly against Hunter, the Republican nominee.

Twenty prominent Republican members secretly hating Hunter but supporting him temporarily.

Majority of silverites fighting for Gov. Bradley for Senator.

Several Third district silverite members secretly for Hunter and waiting for a chance.

One gold Democrat, Mr. Baird, openly avows himself a Republican.

Two other gold Democrats, Stout and Norman, voting for Hunter, the Republican nominee.

National Democratic Committeeman Wilbur F. Browder working for Hunter, a silver Republican.

National Democrat, Col. Josh Powers, working for Hunter.

W. O. Bradley, first Republican Governor of Kentucky, openly fighting Hunter, the Republican Senatorial nominee.

Republican Senatorial nominee Hunter openly fighting W. O. Bradley, first Republican Governor of Kentucky.

Silverite W. O. Rodes, of the Third district, and Attorney General Taylor (Rep.) in telegraphic communication about sending Hunter workers here.

National Democratic Senators Elliston, Stephenson and several others, against all Republican candidates.

National Democratic Representative J. C. Speight, National Democratic Senator Joe Nee and others, for Gov. Bradley for Senator.

Former Senator J. C. S. Blackburn prefers Bradley, but hates to let go of the nomination.

Silver Senators angry with Blackburn because he hangs on to a straw.

Open gossip that two members will get the \$10,000 reward offered for two votes.

National Democratic Representative A. J. Carroll for Judge Holt (Rep.) for United States Senator.

Republican National Administration's personal representative here ready to give the word quietly in a few days to drop the present Republican nominee and take up another.

Adj. Gen. Collier and many other Republicans fighting for Bradley for Senator.

Republicans, gold Democrats, silverites, divided into factions and "cussin' each other like forty."

Scores of them on the fence.

Settling a Bet.

The quiet of the room in which the answers to queries editor sat was disturbed by the entrance of two half grown boys.

One of them pulled off his hat and addressed him:

"Me and this feller have made a bet," he said, "and we've agreed to leave it to you. He bets that if all the turkeys that was eat last Christmas was placed in a line they would reach around the world, and I bet they wouldn't. Who's lost?"

"You have, my son," answered the man in the chair. "They might be placed a mile apart and they would still be in a line, you know."

As they turned and went out of the room the boy who had acted as spokesman was seen to hand a small coin over to the other with great reluctance, and distinctly heard to say:

"Well, I can lick you, anyhow."

"Bet you a nickel on that, too," replied the other boy.—Chicago Tribune.

Sometimes the most careful women are the most careless. Many a woman bundles herself up, to keep out sickness—when she is neglecting the very worst sickness that can come to a woman. She allows a slight disorder to become worse, to slowly sap her vitality. The little pain and the other slight indications of seem to her unimportant. She goes on, with increasing suffering, until life itself becomes a drag. Nervousness, "sinking spells," digestive disturbances, and fifty other complications may arise from the derangement of the organs distinctly feminine. Over thirty years ago, the need for a reliable remedy for so-called "female complaints" was recognized by Dr. R. V. Pierce, then and now, chief consulting physician to the World's Dispensary and Invalids' Hotel, at Buffalo, N. Y. He prepared Dr. Pierce's Favorite Prescription, the most wonderfully effective remedy that has ever been used for such maladies.

Mexico (Mo.) intelligence: "A very amusing incident occurred at the M. E. Church, South, Sunday school last Sunday. The various classes had reassembled after the recitations and were being questioned by Dr. H. L. Hinde. The scholars displayed a commendable knowledge of the lesson and the questions were answered with precision and alacrity. Finally Dr. Hinde asked, 'Who, next to the Lord and Savior, was the greatest man who ever lived?' There was a deathly silence for an instant, and then the boys in a class over in one corner answered in chorus: 'William J. Bryan.' The smile which followed the response spread over the whole school, and it seemed to almost indicate the opulence of most of the pupils."

Mrs. Katie Cook is improving slowly.

Mrs. Anna Bullock has returned home.

Rev. Schoonover made a flying trip to Bethel Saturday.

Miss Alice Lally went to Maysville Saturday to visit friends.

Mrs. R. B. Cord, of Covington, is here visiting the family of Mr. Henry Cord.

Miss Annie and Willa D. Ray called on Mrs. Ida Goodman Saturday evening.

Remember the subject for next Sunday is "A Good Character in Preference to Riches."

Mrs. Amanda Rice and little daughter, who have been visiting her daughter, Mrs. Stevenson, of Russel Cave, Ky., have returned home.

The family of Mr. C. A. Goodman, of Wedonia, were among the party that constituted a family reunion the 24th day of March at the pleasant home of Mr. S. R. Walker near Orangeburg, this being the forty-ninth successive meeting of this devoted family, and the father's seventy-third birthday. Those in attendance were the five daughters and their families, three sons and their families, besides other relatives. An elegant dinner was served, the table very beautifully decorated with evergreens, confectioneries and home fruits. It owed its beauty to the artistic touch of Mrs. C. A. Goodman, and fairly groaned with its weight of country and city luxuries. The meeting will long be remembered by all that were present.

EIGHT BALLOTS TUESDAY,

But No Senator—Hunter Tried Hard But Couldn't Reach—Doings of the Legislature.

Eight ballots were taken for Senator at Tuesday's joint session of the Legislature, but there was no election. Hunter still lacked two votes of winning. It was given out Tuesday morning that he would make a supreme effort, and it looks like he has played his last card. His friends say, however, that they will stand out until the last. They contend that no Republican should think of becoming the beneficiary of "party treason," and that no true Republican can think of abandoning him.

A special says there is a quiet movement among some of the Eastern Kentucky members of the Legislature to unite upon Judge Morg. Thomas for the Republican nomination if Dr. Hunter withdraws. He is doing what he can for Hunter, but if the nominee can not win, then his friends will act.

In the House Tuesday the following new bills were introduced:

Amending act relating to courts of justice which raises amounts on civil cases on which appeal can be taken to the Court of Appeals from \$100 to \$200; also raising amounts on appeals that can be taken in all subordinate courts proportionately.

Exempting all persons from poll tax over sixty-five years of age.

An act providing that persons convicted of crime of burglary shall in addition to penalty now pronounced against them by law, before he is released from the penitentiary, have tattooed a letter "B" on each cheek of his face by picking in stain and colored liquid, so he shall be plainly marked in such manner as not to be hidden from view by any beard he may hereafter be able to grow.

Repealing article 12 in chapter 65 of the primary election law.

Raising the amount on which appeals to the Court of Appeals may be taken to \$300.

The following bills were passed: Reducing from \$2 to 75 cents Sheriff's fees for advertising delinquent taxes; assigning cities and towns to class to which they belong; purpose of this bill is to change Pineville from fourth to fifth class city. An act making fees of Secretary to Assistant Secretary of State collectible and paid into the State.

The bill providing for marking and labeling convict mined coal coming into the State was passed.

Another bill passed in the House was an act authorizing the Attorney General to bring suit to revoke the charters of the corporations for abuse or misuse of corporate franchise. This is aimed at the Southern Pacific.

Miss Powling invites her friends and the ladies generally to call when needing anything in the millinery line.

MR. J. FRED HELF, of Newport, is spoken of by the Cincinnati Post as one of the promising young comedians of the country. He is already recognized also as a song writer, being the author of "Two Sweethearts of Mine," "Blue Grass Bell," "My Sweet Irene" and others. Mr. Helf is well known in this city, having made many friends during his visits here.

A Man of Resources.

A good story is told of the late Count Gleichen when he was an ambassador in London. At a dinner party it was his hard luck to have to conduct to table a lady of a taciturn and unresponsive nature.

To all his polite nothings she answered never a word. Nothing daunted, he continued to ply her with small talk, till at last she slowly turned her head toward him and deliberately yawned. The count was equal to the occasion.

"Ah, madam," he said loudly, "I also have gold in my teeth."—Strand Magazine.

"RAH FOR THE REDS."

The "Blues" Will Have to Hustle to Overtake 'Em—The Juniors' Work—The Boys' Rally—Y. M. C. A. Library.

The parents and friends of the Juniors, about seventy in number, spent a very pleasant evening in the gymnasium Saturday evening last witnessing a gymnastic exhibition given by the junior members. The boys went through the dumb-bell drill almost faultlessly, and the apparatus work which followed was certainly very gratifying, especially in view of the fact that the boys have had only about two to three months of the class drills.

Twenty-four boys were in attendance upon the boys' rally Sunday afternoon. The practical talk illustrated with the use of chemicals was pleasing and instructive. It was very evident that the boys were much impressed.

This evening at 7:30 o'clock sharp, the Red Indians will hold another council. Pawnee Bill promises a very interesting meeting. Let every warr or be present, dressed in red and prepared to give the war-whoop.

Two more Reds were brought in yesterday.

Reds..... 21

Blues..... 18

Although the association has made no special effort thus far to secure a library, yet several friends have sent in books from time to time, and there is now a nucleus of about thirty volumes. During the past two or three days books have been sent in by Mrs. L. M. Keith, Miss Mary Hudnut and Rev. F. W. Harrop. We wish to recommend, especially to the young men who may frequent the association rooms, one of these new books entitled, "Pushing to the Front; or Success Under Difficulties." It is an excellent volume and would prove interesting and stimulating to any young man who is ambitious to succeed in life. The association is grateful for these gifts and any books that would be of special interest and value to young men will always be gratefully received.

Whoopie! Four more "Reds" and five "Blues" were reported this morning, and the score at 9 a. m. stood:

Reds..... 23

Blues..... 23

The fifty mark has been passed and there are two weeks yet of the fight. Let every "Red" pull for the 100 mark.

In addition to the above three "Blue" Juniors have been added.

The Y. M. C. A. is not a "money making concern," and the man who says otherwise shows his ignorance. Its sole aim is to make men, and especially young men, better—physically, morally and spiritually. Let everybody lend a helping hand in this grand work.

Requisition For Riggs.

FRANKFORT, Ky., March 30.—Governor Bradley this evening issued a requisition on the Governor of Ohio for Amos Riggs, who is wanted at Maysville for murder. W. B. Dawson, a Constable of Mason County, was given the requisition.

Constable Dawson will proceed at once to Columbus, and expects to have Riggs in the Maysville jail by the last of this week.

Something to Know.

It may be worth something to know that the very best medicine for restoring the tired-out nervous system to a healthy vigor is Electric Bitters. This medicine is purely vegetable, acts by giving tone to the nerve centers in the stomach, gently stimulates the liver and kidneys and aids these organs in throwing off impurities in the blood. Electric Bitters improves the appetite, aids digestion, and is pronounced by those who have tried it as the very best blood purifier and nerve tonic. Try it. Sold for 50c. or \$1 per bottle at J. J. Wood's drug store.

Abuse of the Eyesight.

In the waiting room of an up town physician sat, one morning, a dozen persons trying to read. The windows were draped with heavy lace curtains, the dull yellow shades were drawn down to within about a yard of the bottom of the long windows, and as the day was cloudy the light in the room was a very subdued twilight. Finally a late comer had the courage—it required some, everything was so very quiet and irreproachable—to go to the hall and ask the dress suited door opener to come and raise the shades. This he at once did and turned on as well the electric lights in the back part of the room, to the great betterment of the reading light. Which little incident is cited to emphasize what an oculist characterizes as the reckless abuse of the eyesight which in these days has assumed the proportions of an evil.

"On street and railway cars, in libraries, schools, offices, homes, everywhere, eyes are unnecessarily tried," he says, "with the result that half the world is in glasses years before the need should arise. It is so usual a thing now for persons to be afflicted with ocular headaches, that when a physician's advice is sought for a persistent and unexplained headache the patient is first turned over to an oculist. Nine times out of ten defective vision sufficient to produce the disturbance is found, and seven times out of ten the sufferer is the victim of his own want of care in the use of his eyes. Women are frequent sinners in this respect; they protect their complexions in every possible way, while to the delicate organ of sight they give never a thought till the mischief is done."—New York Post.

Didn't Understand English.

A Chinaman was once "hauled up" before a magistrate in Sydney, New South Wales, and charged with some offense. In reply to his worship's usual query as to whether he pleaded guilty or not, he would only answer:

"Me no sabee! Me no talkee English."

The magistrate, however, who was quite accustomed to the proceeding on the part of many Celestials who came before him, turned to him and said:

"That answer won't do for me. You know English well enough, I'll be bound."

"Me no sabee—me no sabee!" were the only words to be drawn from obstinate Chinkey, and, no Chinese interpreter being in court, the magistrate, taking the matter into his own hands, directed the case to be proceeded with as if the accused had pleaded not guilty.

After hearing the evidence of the witnesses the accused was fined \$10 and costs.

The clerk to the bench, who was a bit of a wag, called out to the accused:

"John, you are fined \$25 and costs."

"No, no!" promptly replied the non-English speaking Chinese. "He say me fined only \$10 and costs."—Chicago Post.

UNDER THE LAKE

Two Men Were Blown to Atoms and Four Others Injured by an Explosion.

CHICAGO, March 31.—Two men were killed and four seriously injured by an explosion in the northwest water tunnel at the foot of Oak street yesterday.

The dead are:

Owen O'Malley.

Peter Gallagher.

The injured: Thomas Gallagher, Dennis Hayes, Patrick Conway, George Plank.

The explosion took place at a point 2,800 feet from shore, under the lake, where excavation was in progress for a water supply inlet. An unusually heavy blast had been prepared by the men and the work had been safely accomplished. The fuse had been lighted and the warning given the men to get a safe distance.

O'Malley and Gallagher strayed behind for an instant and were within a few feet when the explosion occurred. They received the full force of the blast and were literally blown to pieces. Hayes, Conway and Thomas Gallagher had run a considerable distance when the explosion occurred and ordinarily would have been out of reach of the blast. This time, however, the flying rocks and the debris seemed to have more than ordinary force and, besides being burned by the explosion, they were crushed and bruised by heavy stones and masses of clay.

Other Dynamite Victims.

WEBB CITY, Mo., March 31.—The victim of his own want of care in the use of his eyes. Women are frequent sinners in this respect; they protect their complexions in every possible way, while to the delicate organ of sight they give never a thought till the mischief is done."—New York Post.

Felt One Hundred Feet.

BRAZIL, Ind., March 31.—The case of Harley Eppert vs. the Vigo County Coal company for \$10,000 damages was compromised in the circuit court by the defendants paying the plaintiff \$700. A year ago, while in the employ of the company, Eppert fell down the air chamber of the mine, a distance of 100 feet.

Crawled Under a Train.

SUFFOCATED.

Four Women and a Baby Perish in a New York Fire.

NEW YORK, March 31.—Four persons, three women and a baby, were smothered to death by smoke yesterday in the double brown stone 5-story dwelling house, 61 West One Hundred and Fifth street, which was partially destroyed by a fire that originated in a dumb waiter in the basement of the building, spread to an air shaft, and from there up through the house. The dead are:

Mrs. Elizabeth French, 28 years old.

Her 6-month-old child.

Mrs. Elsie Morrissey of Albany.

Ten families lived in the house, but there were no men on the premises when the fire broke out. All the women and children on the first floor got out of the burning building. The three persons who lost their lives were the only occupants of the fifth floor when the fire broke out.

They ran to a window overlooking the street and made their presence in the burning building known to the firemen. An attempt was made to reach the window where the women had been seen, but it was of no use. As soon as the fire was under control the firemen got into the room where the women had been seen. One of the women lay dead on a couch, clasping tightly in her lifeless arms the body of an infant. Near the front window was the body of the other woman. They had all died of suffocation.

The body of Mrs. Thomas Dadington was found in the ruins later, making four deaths. It is now believed that her 5-year-old son, Thomas, has also been burned to death.

RECEIVER ASKED FOR

In Order of Equity Affairs at Indianapolis, Ind.

INDIANAPOLIS, March 31.—Application for a receiver for the Order of Equity and the removal of Assignee Blair was made yesterday by members of the order. The complaint sets forth that the order was organized as a "secret fraternity and a charitable association" and gives as a reason for the application that "the pretended assignment was signed or executed by the trustees of the defendant corporation; Assignee Blair is a supreme officer of the corporation, and if a receiver is not appointed there is great danger that some of the creditors of defendant corporation may obtain undue advantage and preference."

This is the order that assigned several days ago because it was no longer able to meet maturing certificates. The membership has dwindled from thousands to hundreds and the assets are thought to be very small. The court will pass on the application Thursday next.

TOWNSHIP CROOKEDNESS.

Serious Charges Against Certain Indiana School Officials.

WASHINGTON, Ind., March 31.—Three weeks ago Lon Thompson and James Allen, school furniture and township supply men, petitioned the board of commissioners to remove Alf Wallace, county school superintendent, alleging that he had been illegally selling supplies to township trustees. His trial is to be held April 5. Yesterday Trustee Weaver of Knox county came and employed attorneys to assist him to unearth alleged frauds in his township, claiming that Allen sold him a carload of sewer pipe, taking \$200 warrant, which he disposed of to E. L. Hatfield of this city. Subsequently a similar warrant turned up in possession of Mr. Williams of this city, which he claims to have got from Allen and which Weaver claims is fraudulent. Trustee Earl of this county says he was approached by Thompson, who proposed to sell him \$300 worth of maps, etc., and present him \$100 for purchasing. Altogether it is a pretty kettle of fish.

Tramps Overpower the Guard.

GREENCASTLE, Ind., March 31.—A jail delivery occurred here yesterday. Nine tramps had been sentenced to the stone-pile. Suddenly they seized their guard, Deputy Sheriff Hoffner, chained him to a post with a pair of shackles, and then sought safety by flight. The deputy sheriff was unarmed, and no resistance could be made. No effort was made to recapture the fugitives.

Twenty Rounds to a Draw.

NEW YORK, March 31.—After 20 rounds of hard fighting between Jack Everhardt of New Orleans and "Kid" McFarland of this city, at the Broadway Athletic club last night, the referee decided the bout a draw.
